

**Position:** Senior Microsoft Developer  
**Experience:** 5+ years experience in application development

**Description:**

We are looking for an enthusiastic person with an innovative and creative perspective on application development. The candidate must be open-minded and be able to think on his/her feet. This is an excellent opportunity to become a part of a growing organization with an expanding emphasis on Information Technology.

The candidate will be responsible for receiving functional specifications and developing business logic components, prototyping, writing web interfaces, writing stored procedures, working with additional third party software and/or tools, etc. The candidate must be able to work well in a team environment and have the ability to multitask.

**Required Skills:**

- 4 year degree in computer science, Information Systems, Engineering or equivalent
- C# 2.0 – 3-5 years experience
- DotNetNuke (either version) – 1-2 years experience with it
- Optionally Sharepoint/Rainbow/other .NET Portal framework.
- Proven written and verbal communication skills
- Relational database experience
- Web development experience

**Preferred Skills:**

- Experience in .NET, C#, ASP.NET, ASP, HTML, MS SQL Server, T-SQL, XML, DTS, IIS, Web Services, COM+
- Visual Studio.NET, Visual SourceSafe, MS Office
- Knowledge of object-oriented methodology and design patterns
