

Shamrock's packaging team clearly thinks outside the box, blending form with function to develop creative and compelling packaging and point of purchase displays. Our experienced packaging specialists cater to clients in a host of industries to create unique, custom packaging solutions for use in commercial and industrial markets.

Our clients benefit from Shamrock's integrated approach: We source every element of smart packaging development, beginning with our in-house CAD system and creative direction from our design studio; innovative prototype and testing capabilities; professional printing and production services; backed by comprehensive shipping, warehousing and fulfillment applications. Our team manages every element of the packaging process to ensure quality and brand integrity at every touch point.

Whether we are charged with creating a more functional product container, designing a new product sales kit, or developing an in-store display that will stop traffic, our packaging team can meet the challenge, providing our clients with complete packaging management, including POP, wire rack displays and related services. Our production staff works with a host of materials that include:

- Corrugated cardboard
  - Folding carton
  - Foam
  - Acrylic
  - Flexible packaging
  - Plastic
- (i.e. pouches and bags)

Innovative. Integrated. Functional. Shamrock's packaging solutions help our clients reach their audience, send a message, sell a product, provide a service, boost efficiency and always, strengthen brand identity.
